### Cubby Bears

The newest addition to the Bear Memories line is the adorable "Cubby Bear!" These little loves are a tiny version of the original Floppy Bear sitting at a maximum height of 9-10 inches tall and as small as 7 inches. These memory bears are designed to be made from a favorite infant sleeper/clothing or a "coming home from the hospital outfit." This would make a cherished keepsake for a mom, a child or a special hand-me-down to a grandchild. Price for a Cubby Bear is \$25. Please contact Bear Memories for ordering information.

(NOTE: size 0-3 months is required to make a one color bear. Newborn sizes may require more than one item of clothing to complete a bear.)

This Cubby Bear was made from several items, made in memory of an infant. It is adorned with several memory items and a special patch bearing the babies name.

This Cubby Bear was made from an infant's flannel shirt. The smaller size 0-3 month bears were made due to the number of bears needed to give to the family. This bear has a photo memory and a written message in her writing added to it.
